— About me —

Front-end Lead and Full-Stack Senior Web Developer with over 9 years of experience building end-to-end and maintaining modern web applications across fintech, e-commerce, and SaaS industries. Skilled in **React (v19), Next.js, Node.js, Python, Java, and RESTful APIs**, with solid expertise in **server-side rendering, WebSockets, and accessibility best practices**.

I combine hands-on technical depth with business-oriented problem solving. Passionate about clean code, UI/UX, and leveraging emerging technologies to build impactful digital products.

— Work experience —

Frontend Lead & Product Engineer @ Timbal Tech, S.L. (Timbal AI) | [LinkedIn](#) | [Website](#) | 10/11/2025 - Current | Barcelona (remote), Spain

- AI Native development, workflows orchestration and product architecture using custom in-house AI framework.
- Leading frontend products across client businesses, main one being an end-to-end AI-powered ERP
- Everyday stack: **React, Next.js, TypeScript, ShadCN UI, TanStack (Query/Table), Python, FastAPI, AI Workflows**.
- Building scalable, high-performance UIs with component-driven architecture and optimized data flows.
- Partnering closely with backend teams (APIs, AI services, data pipelines) to deliver end-to-end custom AI solutions.
- Driving technical decisions, frontend architecture standards and best practices to ensure quality, scalability, and fast delivery across multiple clients.
- Translating complex business and AI requirements into intuitive, production-ready user experiences.

Frontend Lead (React) @ Aplicaciones Web Mardo, S.L. (CODETICKETS) | 11/2024 - 11/2025 | Mataro (remote), Spain

- Full migration for a core web application using **React 19, Node.js 23, React Router v7, Bootstrap, Vite, Axios, Java**.
- Building and integrating **RESTful APIs** with CRUD architecture, database queries, and authentication layouts.
- Implementing **Server-Side Rendering (SSR)** with **Next.js** and advanced React Router features.
- Collaborating across teams to ensure scalable, accessible, and performant solutions, applying **WebSockets** and the latest **WCAG accessibility guidelines**.

Senior Fullstack Web Developer & UI/UX Designer @ Pixelimperium, S.L. / Freelance | 11/2022 - 09/2024 | Ibiza (remote), Spain

- Everyday tech stack: **React, Next.js, TypeScript, Java, Hono, Supabase, REST APIs, WebSockets, SQL**.
- Led UI/UX design and frontend architecture, creating accessible (**WCAG-compliant**) design systems and component libraries with strong focus on usability and performance.
- Optimized performance and delivery pipelines using **Vite, Axios**, and deployed across **Vercel, AWS**, and **Cloudflare**, ensuring scalability, reliability, and fast iteration.

Senior Frontend & iOS Engineer @ DR Finantrust, S.L. (INBISA) | 05/2022 - 09/2022 | Molins De Rei, Spain (hybrid)

- Fintech oriented applications for managing and viewing market stocks and currencies across various providers in real time.
- Everyday tech stack: **React, React Native (iOS), Swift, Node.js, Java**, delivering real-time, data-intensive user experiences.
- DevOps and CI/CD with **AWS, Oracle Cloud, Cloudflare**, and **Web3 integrations (Ethers.js)**.
- Led technical mentorship and training initiatives, improving team productivity and accelerating adoption of internal tools and best practices.

Fullstack Developer | Software Engineer @ Businessprinter, S.L. | 06/2020 - 05/2022 | Hospitalet de Llobregat, Spain (hybrid)

- Coordinated a 5-person IT team, building and maintaining applications using **React, Angular, Node.js, PHP, Java**, and **Swift**. • Developed and managed fullstack systems and cloud infrastructure on **AWS**, ensuring reliable and scalable deployments. • Delivered tailored B2B solutions, working closely with clients to meet business needs and support service growth.

Software Engineer (Junior) @ Magnum Object, S.L. | 05/2017 - 06/2020 | Cornellà, Spain (on-site)

— Education & Training —

Web Application Development (IFCD0210) | Ironhack | 12/2024 - 09/2025 | Barcelona, Spain

FP Grado Superior DAM (Multiplatform Apps Development) | Salesians de Sarrià | 09/2017 - 06/2019 | Barcelona, Spain

Baccalaureate in Science/Technology | Institut Proa (Proa's Senior High School) | 09/2015 - 06/2017 | Barcelona, Spain

— Hobbies —

Whenever I am not on the computer learning and practicing with new technologies, I would spend time learning Japanese through calligraphy practice, or I could instead be practicing with my home piano for some hours. Since AI adoption I find it hard to leave my home desktop and my tech laboratory, and for that reason I own two small home servers and one autonomous agent 24/7. I also like sports such as climbing, biking, surfing, snowboarding and I am currently waiting to try kite-surfing here in the Netherlands.

— Languages —

Native: English, Spanish, Catalan Can speak: Italian Learning: Japanese, Dutch
